Website Address:

Project Description: The BNB is a proposed 52-mile freeway extending from I-59/20 west of Birmingham, Alabama to I-59 on the east of Birmingham.

Schedule Status, Completion Dates: The FEIS was signed June 12, 1997. One segment of the project, from Alabama Highways 79 to 75 has been reevaluated and right of way is being purchased. An indirect and cumulative impacts analysis as well as a PM2.5 qualitative hot-spot analysis is being prepared for the entire route. Reevaluations are also underway for several sections of the project.

Total Cost (Billions): \$3.327

Funding Sources: Earmark funds have been used on this project to date. However, the corridor has now been designated APD Corridor X-1, therefore, APD funding will now be the primary funding source.

Finance Plan Status:

Project Sponsors: Alabama Department of Transportation
